

Fan Units

With current trends to use higher speed processors and more dense packaging of components, the temperature of rack mounted equipment becomes crucial.

Standard and Pochin have a solution to reduce the thermal effect of equipment mounted in free standing enclosures; importantly the roof mounted fan units do not take up any 19 inch rack mounting space.

Key Features:

- A universal cabinet roof mounting unit with 2 or 4 fans
- Fans trays manufactured in steel
- Supplied with mains leads
- An indicator light
- CE Marked and RoHS compliant

Specification:

- Constructed in 1.2mm thick steel
- Painted in Dove Grey powder paint
- 120mm square fans each with an air output of 81 cubic feet per minute
- 220v a.c. supply voltage
- Supplied with 2m mains lead and a moulded plug

2 fan unit

4 fan unit
