

Power Distribution Units

As enclosures become more populated with servers, routers, switches and UPS equipment it is important that power distribution solutions are also available.

Standard and Pochin offer a range of power solutions with 19 inch rack mountable and vertically mounting PDU's. All the units are switched and are supplied with mounting brackets to facilitate mounting the units in a 19 inch rack.

Key Features:

- Vertical Mounting with up to 12 ways
- Horizontal Mounting (19 inch) with up to 6 ways
- Angled sockets to allow clearance for cables
- CE Marked

Specification:

- Extruded aluminium chassis with end plates
- BS 13 amp socket
- Rated at 13 amps maximum load
- Supplied with lead and BS 13 amp plug

Ordering Information:

Size	Vertical mounting	Horizontal mounting
4 way	PDU 4V	PDU 4H
6 way	PDU 6V	PDU 6H
8 way	PDU 8V	
10 way	PDU 10V	
12 way	PDU 12V	
16 way	PDU 16V
